QUALIFIED PERSON

All scientific and technical information in this MD&A has been reviewed and approved by Russell Fulton, VP Exploration for TinOne and a "qualified person" as defined under National Instrument 43-101 *Standards of Disclosure for Mineral Projects*.

BUSINESS OVERVIEW

The Company was incorporated pursuant to the provisions of the Business Corporations Act of British Columbia on February 6, 2019. TinOne's principal business activities are the acquisition and exploration of mineral property assets. The Company is in the exploration stage with respect to its interests in exploration and evaluation assets. The recoverability of the amounts comprising exploration and evaluation assets is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete its exploration and development and upon future profitable production. The Company is listed on the TSX Venture Exchange under the symbol "TORC.V" and on the OTCQB Venture Market under the symbol "TORCF". The Company's head office is located at 6th floor, 1111 West Hastings Street Vancouver, BC V6E 2J3.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

Certain statements in this document constitute forward-looking information under applicable securities legislation. Forward-looking information typically contains statements with words such as "anticipates", "believes", "estimates", "will", "expects", "plans", "intends", or similar words suggesting a future outcome or an outlook. Forward-looking information in this document includes, but is not limited to:

- our business plan and investment strategy; and
- general business strategies and objectives.

TINONE RESOURCES INC.
Management's Discussion and Analysis
For the three and nine months ended March 31, 2026 and 2025
(Expressed in Canadian dollars, except where noted)

Such forward-looking information is based on a number of assumptions which may prove to be incorrect. Assumptions have been made with respect to the following matters, in addition to any other assumptions identified in this document, which include, but are not limited to:

- taxes, operations, general and administrative as well as other costs;
- general business, economic and market conditions;
- the ability of the Company to obtain the required capital to finance its investment strategy, and meet its commitments and financial obligations;
- the ability of the Company to obtain services and personnel in a timely manner at an acceptable cost to carry out activities; and
- the timely receipt of required regulatory approvals.

Although the Company believes that the expectations reflected in such forward-looking information are reasonable, undue reliance should not be placed on them as there can be no assurance that such expectations will prove to be correct. Forward-looking information is based on expectations, estimates and projections that involve a number of risks and uncertainties which could cause actual results to differ materially from those anticipated and described in the forward-looking information. The material risks and uncertainties include, but are not limited to:

- meeting current and future commitments and obligations;
- general business, economic and market conditions;
- the uncertainty of estimates and projections relating to future costs and expenses;
- changes in, or in the interpretation of, laws, regulations or policies;
- the ability to obtain required regulatory approvals in a timely manner;
- the outcome of existing and potential lawsuits, regulatory actions, audits and assessments; and
- other risks and uncertainties described elsewhere in this document.

The foregoing list of risks is not exhaustive. For more information relating to risks, refer to the Company's MD&A for the years ended June 30, 2025 and 2024. The forward-looking information contained in this document is made as at the date hereof and, except as required by applicable securities law, the Company undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise.

GOING CONCERN

The Financial Statements have been prepared on a going concern basis, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. As at March 31, 2026, the Company had a working capital deficiency of \$754,639 (June 30, 2025 - \$725,586) and an accumulated deficit of \$10,156,907 (June 30, 2025 - \$9,722,009). These factors indicate the existence of a material uncertainty that may cast significant doubt upon the Company's ability to continue as a going concern. As a result, the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent upon its ability to raise adequate funding through equity or debt financing to discharge its liabilities as they come due. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. These Financial Statements do not reflect the adjustments to the carrying values of assets and liabilities that would be necessary if the going concern assumption was inappropriate. Such adjustments could be material.

CURRENT PERIOD ACTIVITIES

On September 2, 2025, the Company completed a non-brokered private placement and issued 6,000,000 units at a price of \$0.05 per unit for gross proceeds of \$300,000. Each unit was comprised of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.065 per share and expires on September 2, 2030. Using the residual method, gross proceeds were first allocated to share capital using the closing price of one common share on September 2, 2025 of \$0.09 and as a result, fair value of \$300,000 was allocated to share capital with \$nil residual fair value allocated to the warrants. These funds will enable the Company to operate while it reviews its strategic alternatives.

TINONE RESOURCES INC.
Management's Discussion and Analysis
For the three and nine months ended March 31, 2026 and 2025
(Expressed in Canadian dollars, except where noted)

During the three months ended March 31, 2026, all outstanding principal and accrued interest related to the convertible debentures issued on May 16, 2024 and June 11, 2024 were converted into common shares at the option of the holders. As a result, the Company issued an aggregate of 6,215,400 common shares and transferred the carrying amount of the convertible debentures of \$787,551 to share capital. In addition, the conversion feature reserve of \$75,345 was reclassified to share capital.

OVERALL PERFORMANCE AND RESULTS OF OPERATIONS

A summary of the Company's results of operations is as follows:

Q3 2026 compared to Q3 2025

The Company's net loss increased to \$166,497 compared to \$139,613 in the prior year comparable period, of which the primary drivers were as follows:

- Filing fees increased to \$16,693 from \$12,615 in the prior year comparable period primarily due to increased filing activity related to the conversion of convertible debentures and annual general meeting news releases.
- Professional fees increased to \$43,214 from \$12,204 in the prior year comparable period primarily due to tax compliance services and legal support related to the settlement of convertible debentures in the current period.

Partially offsetting the increase in net loss and comprehensive loss were as follows:

- Management fees decreased to \$52,500 from \$64,500 in the prior year comparable period primarily due to a lower level of corporate and operational activity during the period.
- Property investigation expenses decreased to \$nil from \$3,430 in the prior year comparable period primarily due to the Company scaling back its efforts to identify and evaluate suitable exploration projects in the current period.

TINONE RESOURCES INC.
Management's Discussion and Analysis
For the three and nine months ended March 31, 2026 and 2025
(Expressed in Canadian dollars, except where noted)

YTD 2026 compared to YTD 2025

The Company's net loss decreased to \$434,898 compared to \$483,553 in the prior year, of which the primary drivers were as follows:

- Filing fees decreased to \$26,024 from \$30,603 in the prior year comparable period primarily due to reduced activity and news releases in the current period.
- Management fees decreased to \$147,500 from \$187,167 in the prior year comparable period primarily due to a lower level of corporate and operational activity during the period.
- Property investigation decreased to \$1,169 from \$29,287 in the prior year comparable period primarily due to the Company scaling back its efforts to identify and evaluate suitable exploration projects in the current period.

Partially offsetting the decrease in net loss and comprehensive loss was an increase in professional fees to \$95,519 compared to \$83,152 in the prior year comparable period primarily due to tax compliance services and legal support related to the settlement of convertible debentures in the current period.

SUMMARY OF QUARTERLY RESULTS

A summary of the Company's quarterly results for the most recently completed eight quarters is as follows:

	Q3 2026	Q2 2026	Q1 2026	Q4 2025
	\$	\$	\$	\$
Net loss	(166,497)	(125,334)	(143,067)	(291,961)
Net loss per share - basic and diluted	(0.01)	(0.01)	(0.01)	(0.03)
	Q3 2025	Q2 2025	Q1 2025	Q4 2024
	\$	\$	\$	\$
Net loss	(139,613)	(173,357)	(170,583)	(596,128)
Net loss per share - basic and diluted	(0.02)	(0.02)	(0.02)	(0.07)

The Company's net loss from Q1 2025 to Q3 2025 were higher than from Q1 2026 to Q3 2026 as a result of the strategic decision by management to reduce spending to conserve the Company's cash. The increase in net loss in Q2 2025 and Q4 2025 was due to management's decision to impair several of the Company's mineral properties in order to focus on the Aberfoyle and Great Pyramid Project. The decrease in net loss in Q3 2026 in comparison with Q3 2025 was due to the Company's lower level of activity and the decrease in currency translation loss in the current period.

Projects located in Australia:

a) Aberfoyle and Great Pyramid Projects (Tenements EL27 2004 and RL2 2009)

On October 17, 2019, as last amended on June 3, 2020, the Company entered into an agreement (the "Tenement Sale Agreement") to purchase tenements EL27 2004 and RL2 2009. The Company paid \$89,220 (AUD \$100,000) for the initial payment per the Tenement Sale Agreement and initially recorded amount owing on asset acquisition of \$359,789 which was the fair value of future payments of AUD \$600,000 discounted at a rate of 16%. The remaining commitments were accreted over the term of the Tenement Sale Agreement.

The Company paid in aggregate \$276,167 (AUD \$300,000) and issued shares with an aggregate fair value of \$361,040 (AUD \$400,000) as consideration for the tenements. Tenements EL27 2004 and RL2 2009 are subject to an underlying 3.75% net smelter royalty ("NSR"). EL27 2004 and RL2 2009 are valid until November 26, 2026 and August 1, 2026, respectively.

b) Rattler Range Project (Tenement EL10 2019, ELC36 2022, and EL39 2022)

On November 23, 2022, the Company acquired a 100% interest in the Rattler Range tin project in northeastern Tasmania, Australia, through the issuance of 100,000 common shares at a fair value of \$100,000. In addition, the Company granted the vendor a 2% NSR over the project. The Company has the right, at any time upon notice being given to the NSR holder, to repurchase one-half of the NSR for \$1,000,000 in cash. EL10 2019 is valid until June 29, 2025.

During the year ended June 30, 2025, management made a strategic decision to not pursue the Rattler Range Project further and concluded that the project was fully impaired. As a result, the Company recorded an impairment of exploration and evaluation assets of \$145,539 (2024 - \$1,509).

TINONE RESOURCES INC.

For the three and nine months ended March 31, 2026 and 2025
(Expressed in Canadian dollars, except where noted)

c) Castle Carey and Vickory Creek Project (Tenement EL13 2022 and EL14 2022)

On December 16, 2022, the Company's exploration license application for tenements EL13 2022 and EL14 2022 was granted for a term of five years. For the years ended December 15, 2023 and 2024, the Company must make minimum expenditures of AUD \$57,000 for EL13 2022 and AUD \$75,000 for EL14 2022 per year. EL13 2022 is valid until December 15, 2027.

During the year ended June 30, 2025, management made a strategic decision to not pursue Tenement EL13 2022 further and concluded that the project was fully impaired. As a result, the Company recorded an impairment of exploration and evaluation assets of \$18,545 (2024 - \$nil).

LIQUIDITY AND CAPITAL RESOURCES

As at March 31, 2026, the Company had working capital deficiency of \$754,639 compared to \$725,586 as at June 30, 2025.

The Company has not generated any cash flows from operations as it is an exploration stage company. During the nine months ended March 31, 2026, the Company used cash in operating activities of \$272,955 (2025 - \$327,827) which was primarily due to cash spent on management fees and professional fees.

During the nine months ended March 31, 2026, the Company's cash used in investing activities was \$34,317 (2025 - \$142,730) which was primarily due to cash spent on evaluation and exploration activities on the Aberfoyle and Great Pyramid Projects.

During the nine months ended March 31, 2026, the Company's cash provided by financing activities was \$312,114 (2025 - \$nil). Cash provided by financing activities in Q1 2026 included gross proceeds from a private placement of \$300,000, offset by cash unit issuance costs paid of \$13,940. Net proceeds from the private placement will be used to keep the Company's tenements in good standing as well as for general working capital purposes. Additionally, the Company received net proceeds of \$26,054 from warrant exercises during Q3 2026.

The Company's current assets are not sufficient to support the Company's general administrative and corporate operating requirements on an ongoing basis, and the Company may seek to obtain additional financing through debt or equity.

Liquidity outlook

At present, the Company's operations do not generate cash inflows, and its financial success is dependent on management's ability to discover economically viable mineral deposits. The mineral exploration process can take many years and is subject to factors that are beyond the Company's control.

The Company's current liquidity position is supported by cash received from recent private placements, which management expects will fund near-term capital and administrative requirements. These funds provide short-term flexibility while the Company advances its exploration plans.

As previously disclosed under "Current Period Activities" section, during the three and nine months ended March 31, 2026, the Company closed a non-brokered private placement for gross proceeds of \$300,000 through the issuance of 6,000,000 units and settled convertible debentures with a carrying amount of \$787,551 through the issuance of 6,215,400 common shares. Despite this, as at March 31, 2026, the Company had a working capital deficiency of \$754,639.

In order to finance the Company's future exploration programs and to cover administrative and overhead expenses, the Company will need to raise funds through the issuance of common shares or debt. Many factors influence the Company's ability to raise funds, including the health of the resource market, the climate for mineral exploration investment, the Company's track record, and the experience and calibre of its management. Actual funding requirements may vary from those planned due to a number of factors, including the progress of exploration activities. Management believes it will be able to raise equity capital as required in the short and long-term but recognizes that there will be risks involved which may be beyond its control.

Sources and uses of funds

On September 2, 2025, the Company completed a non-brokered private placement and issued 6,000,000 units at a price of \$0.05 per unit for gross proceeds of \$300,000.

SIGNIFICANT JUDGEMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements requires management to make estimates and assumptions that affect the timing and reported amounts of assets, liabilities and expenses. These estimates are based on historical experience and on various other assumptions that management believes to be reasonable under the circumstances and require judgement on matters which are inherently uncertain. Details of the Company's significant accounting estimates and judgments can be found in the notes to the Annual Financial Statements.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements as at March 31, 2026 or at the MD&A Date.

PROPOSED TRANSACTIONS

The Company has no undisclosed proposed transactions as at March 31, 2026 or at the MD&A Date.

FINANCIAL INSTRUMENTS

As at March 31, 2026 and June 30, 2025, the Company's financial instruments consist of cash, security deposits on exploration and evaluation assets, and accounts payable and accrued liabilities all of which are classified as and measured at amortized cost.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation and cause the Company to incur a financial loss. The Company is exposed to credit risk through cash and security deposits on exploration and evaluation assets. The Company manages its credit risk relating to cash through the use of major financial institutions which have a high credit quality as determined by rating agencies. As at March 31, 2026, the Company had cash of \$40,432 (June 30, 2025 - \$30,049) with large financial institutions, and security deposits on exploration and evaluation assets of \$32,798 (June 30, 2025 - \$39,555) with Australian municipalities. The Company assessed its credit risk as low.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at March 31, 2026, the Company is not exposed to interest rate risk.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet its obligations under financial instruments. The Company is exposed to liquidity risk through accounts payable and accrued liabilities. The Company's liquidity will be adversely affected if its access to the capital markets is hindered. The Company has no sources of revenue and has obligations to meet its exploration and evaluation commitments and to settle its financial liabilities.

As at March 31, 2026, the Company had cash of \$40,432 (June 30, 2025 - \$30,049), accounts payable and accrued liabilities of \$846,389 (June 30, 2025 - \$784,168) which have contractual maturities of 90 days or less and convertible debentures of \$nil (June 30, 2025 - \$680,683). The Company will need to raise additional funding to meet its financial obligations in the near term. There is no assurance that the necessary financing will be available in a timely manner or on terms acceptable to the Company. The Company assesses liquidity risk as high.

Foreign currency risk

Foreign currency risk is the risk that the fair value of the Company's assets and liabilities will fluctuate due to changes in foreign exchange rates.

The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities held by the Company and its subsidiaries are not denominated in their functional currencies. The Company does not manage currency risk through hedging or other currency management tools. The sensitivity of the Company's profit or loss to changes in the exchange rate between the Canadian dollar to AUD would be as follows: a 10% change in the Canadian dollar exchange rate relative to AUD would change the Company's net loss by approximately \$1,212 (June 30, 2025 - \$2,517).

RISKS AND UNCERTAINTIES

An investment in the Company should be considered highly speculative, due to the Company's stage and the inherent uncertainty in resource exploration and development. As discussed in the 'Going Concern' section above, the Company's ability to continue as a going concern is dependent upon its ability to raise adequate funding through equity or debt financing to discharge its liabilities as they come due. These and other risks and uncertainties are described in the Company's Financial Statements available on SEDAR+ at www.sedarplus.ca. Readers are encouraged to refer to these documents for a more detailed description of some of the risks and uncertainties inherent to the Company and its business.
